SLOVENIA

Be amazed by breathtaking natural wonders.

*Feel Slovenia, a country located between the Alps,
the Mediterranean and the Pannonian Plain.*

Green. Active. Healthy

Dear colleagues and friends of the Spa industry of Central Europe,

This year we will meet for the eighth time in one of the leading Slovenian Spas, Dolenjske Toplice Thermal Spa. The venue of this year's SPA-CE will be Hotel Balnea ****Superior, a part of Terme Krka health & Spa Resorts located in the heart of the lowlands of Southern Slovenia, the region that is embraced by the Krka river and the beautiful Dolenjska region that will surely impress our international guests.

We are honoured to be able to say that once again a very strong interest has been shown by providers of the spa and wellness offer from the Central European Region as well as by hosted buyers coming to Slovenia mainly from European countries. We are happy to have a stronger presence also from tour operators from UAE that have finally added SPA-CE to their business calendars. Again we have put a lot of effort into careful selection of the participants, giving priority to new and serious hosted buyers. We are excited to be able to say that 85 % of participants will this year discover SPA-CE for the first time. According to the expressed interest we see great potential for the spa and wellness offer presented at SPA-CE to be included in their programme.

In 2016 we are welcoming a couple of novelties. The participants will experience something new by attending special team bonding programmes in form of 4 interactive workshops offering personal experience in Health & Nutrition, Wellness Treatments, Medical Treatment and Program for Healthy Lifestyle. Also new this year will be the Medical Spa Expert Forum where a German team of medical doctors

in cooperation with Fit & Vital Reisen and Slovenian Tourist Board will participate in a discussion dedicated to prevention of new age diseases in Slovenian Natural Spas. For a deeper insight into the program the expert group will separately visit several Slovenian Spas and meet with spa doctor teams the medical staff to get acquainted with the procedures and programs offered.

The pre-scheduled meetings on Friday, the 18th of November will give the best frame to maximize the business talks, for hosted buyers to familiarize themselves with the offer and make concrete decisions about possible future cooperation. Also this year we have prepared an interesting conference programme highlighted by a round table on a burning topic "On-line Vs Off line tour operators and global distribution systems and how do we cope with both".

We wish all participants successful meetings, to establish as many business contacts as possible, sign as many business deals and most importantly to enjoy themselves. We already feel very "SPA-CE-Y" and we hope that our positive vibrations are contagious... so let's all feel "SPA-CE-Y" also this year!

Iztok Altbauer, Managing Director

Organisation of SPA-CE would not be possible without:

SLOVENIAN TOURIST BOARD
www.slovenia.info

“ Terme Krka is best known for its spa tourism, relaxation, sports and recreational programmes as well as several opportunities for organising various seminars, congresses, meetings, trainings, and other events. Our motto – living a healthy life – is reflected in all Terme Krka business units in the Dolenjska Region and in Strunjan.

What makes us stand out is the interlacement of medical and wellness services, which offer our guests better well-being and an improvement of their mental and physical state in curative and preventive programmes.

The healing power of thermal and seawater, the intact green nature, modern hotels, thoughtfully prepared culinary offer with seasonal and locally produced ingredients are all the more reasons for you to visit our spas again and again.

On behalf of the host – Terme Dolenjske Toplice Spa – I wish you a positive experience and a pleasant stay.”

Jože Berus,
Managing Director, Terme Krka

“ Slovenia and the Slovenian Tourist Board are proud to host the SPA-CE trade show, this year to be held in Dolenjske Toplice, one of the oldest spa resorts in Europe. Slovenia is amongst the world's richest countries in terms of water resources – also in terms of curative thermal and mineral water springs – and our exciting range of tourism options has been built on the grounds of this natural resource, whose benefits are in health and rejuvenation. Slovenia has 14 natural spa resorts with centuries-old tradition, oriented toward medical and wellness tourism. They have developed green, active and healthy experiences for body, mind and soul.

Slovenia is a boutique country in the heart of Europe, where the mighty Alps meet the colourful Mediterranean, the mysterious Karst and the peaceful Pannonian Plain. Slovenia's unspoilt and pristine nature is an inspiration for all those who live here and we are proud to have an opportunity to share this enormous wealth with all visitors.

Slovenia offers all visitors the perfect authentic experience, not just for the present day but for their future as well. I have no doubt, that Slovenia will impress you with its extraordinary diversity, amazing green nature, excellent location, friendly people and high quality of life. Let me invite you to discover the “Green. Active. Healthy.” Slovenia – the only country in the world with the word LOVE in its name.”

Maja Pak,
Director, Slovenian Tourist Board

I FEEL SLOVENIA

www.slovenia.info
#ifeelsLOVEnia

FALL IN LOVE WITH SLOVENIA'S HEALTHY WATERS

The only European country combining the Alps, the Adriatic Sea, the Karst and the Pannonian Plain at manageable distances excites with its thermal and mineral springs, waves of the sea, picturesque lakes, diverse rivers and intermittent watercourses, which create unusual landscapes below the earth's surface and also provide good drinking water, which can be enjoyed directly from the tap.

An area of 20,273 km² and more than 28,000 watercourses

The highest-quality drinking water

ENJOY sports activities involving water: swimming, sailing, rowing, rafting, canyoning, fly-fishing, coarse fishing.

DISCOVER the healthy waters of Slovenia. Thermal and mineral springs in 14 registered natural health resorts enhance health and well-being. Enjoy yourself at spa centres with modern swimming complexes and inspiring facilities or outdoors

surrounded by green countryside. Choose from several attractive programmes and excellent health services. Taste the legendary mineral waters of Slovenia.

EXPERIENCE the diversity of Slovenia's rivers, which an old legend says are in competition with each other as they search for a way to the sea. Some of them rush from the Alps along the shortest

route to the Adriatic Sea, others gain in power on the way from the Pannonian Plain to the Danube and on to the Black Sea, while others create majestic underground karst caves. Slovenia's waters are very varied, but they all carry the same message: wherever they are going, they give us life.

HEALTHY WATERS
SLOVENIA

Green. Active. Healthy.

WELCOME TO GREEN, ACTIVE AND HEALTHY SLOVENIA.

Slovenian natural spas and health resorts

Natural healing effects of thermal water, soothing maritime and mountain climate with aerosols, salt water and saline mud, healing peloids and peat are those healing sources with which Slovenia has been richly blessed by nature and which form the basis of the activity of 15 Slovenian natural spas and health resorts. In addition to the wide range of nursing and medical programs, therapeutic massages and saunas the offer of the Slovenian spas and health resorts show many features. The variety comes due to the various climate characteristics - they are in fact in almost all different parts of Slovenia, from the coast, over the hills of Dolenjska and Posavje, the river valleys of Savinja and Sotla to the Region of Pomurje and the Pannonian Plain.

The development and establishment of the Slovenian natural spas and health resorts is struck by the wealth of un-spoiled natural environment of our country. The most important of these are thermal waters with different properties and tem-

peratures (24-73 degrees C) and mineral waters (the world-famous mineral water Donat Mg and Radenska), followed by sea water and salt water (Aqua madre), salt pan mud, peloids organic and inorganic origin and the micro-climate of the coastal region, the Pannonian lowlands, as well as the foothills and the Central Mountains.

Spa and medical Spa activities in the Slovenian natural Spas include both the preventive health as well as rehabilitation treatments by additional use of natural remedies. The base of the Spa activities form the recognized healing powers of natural remedies in relation to individual disease states. The technical basis of spa treatment is the Balneology (Greek balneo = bathing, logos = science), one of the oldest interdisciplinary medical sciences. The spa physicians must also have, despite specialization in their own field, particular expertise in the field of Balneology.

The use of natural remedies allowed the resorts a medical specialization for individual diseases, damage and disability. In the spas, the treatments are performed with the help of different natural resources, drinking cures, mineral and thermal baths, mud baths, salt water and carbonic acid baths and medicinal herbal therapies.

Slovenia's natural health resorts that have arisen in places with mineral and thermal springs have been in the last hundred years the locations where modern rehabilitation of patients after surgery and patients with chronic diseases and conditions are offered. In addition to the use of natural healing factors, there are also the methods of medical rehabilitation, work therapy and physiotherapy are available to the patient. Qualified professionals from various disciplines

supervise the rehabilitation. These have in some centers also the option to perform advanced diagnostic tests. Medical rehabilitation in the Slovenian natural spas is based on the holistic approach and the goal of treatment is the fastest possible integration of the patient after serious illnesses or operations in the active life or alleviating the symptoms of patients with chronic diseases / illnesses.

The people discovered the secrets of well-being in the Slovenian thermal springs already long in the past. The rich thermal spa culture in Slovenia has evidence in excavations from the time of the Roman Empire, written documents are estimating the use of thermal water dating far back in the year 1147. Slovenia lies at the junction of the transit routes in the directions north-south and east-west and thus has always been part of the culture of the Old Continent.

SOURCE OF LIFE ENERGY

The Slovenian natural spas are well-equipped spa and recreational centers where you can swim, run, walk, practice with various equipment's, play golf and tennis, you can enjoy in bowling, horseback riding, skiing, cycling, and can learn to live healthy.

Slovenia's natural health resorts are based on a harmonious relationship between wisdom, experience, natural environment, characteristics of the land and the typical hospitality. As a result of this, each guest can find in this mosaic of health and well-being exactly what he/she wants and needs for him/herself.

www.slovenia-terme.si

Business tourism in Terme Krka: For creative business experiences

BUSINESS TOURISM IN TERME KRKA

Terme Krka hotels offer a wide array of possibilities for organising seminars, congresses, meetings, trainings, events, press conferences, and business meetings. Two main spheres of Terme Krka's business are spa and relaxation activities, offering services that represent the added value also in the field of business tourism. What keeps us one step ahead of the competition is our complete offer and individual approach, as well as a quiet, pleasant environment that positively influences the work atmosphere.

Hotel Balnea in Terme Dolenjske Toplice Spa boasts three modern seminar halls, which make it an important location for business tourism in the Dolenjska Region. Our main focus is the field of business meetings, workshops, and seminars with up to 80 participants. When the number of participants is higher, they are taken care of in the facilities of our business partner, the cultural and congress centre Kulturno-kongresni center Dolenjske Toplice.

HOTEL BALNEA** SUPERIOR**

- **7th place in the category TOP 10 RESORT MEETING HOTELS 2014 – PREMIUM in the region**
- **4th place in the category TOP 10 SPA MEETING HOTELS**

Hotel Balnea in Terme Dolenjske Toplice Spa is known as one of the most beautiful wellness hotels in Slovenia. It was built in 2008 with the intention of offering a pampering experience to those who wish to relax in the embrace of the green Dolenjska Region landscape, while indulging in a variety of well-being services and free-time activities of the highest quality. Eye-catching details that make the hotel very unique always attract the attention of the guests; there are several renowned artworks of Slovenian artists in and around the hotel, e.g. Primož Pugelj's sculptures, Borut Peterlin's photographs, Zora Stančič's graphics, etc.

Otočec hotels, known especially for their unique castle Grad Otočec, have for several years now seen successfully organised various business meetings, business conferences, seminars, trainings, congresses, and business meetings with a social touch. Key advantages of our business tourism programme are the pleasant and peaceful environment along the Krka River, which is located far enough from the city bustle on the one hand, but still close to the main traffic roads on the other, as well as the excellence of services, staff hospitality, and a diverse accompanying programme – from sports and recreational activities, social, cultural and adventurous programmes to the sightseeing of interesting nearby tourist attractions. A well-equipped, modern congress hall in the Šport Hotel**** represents the central area for business events, while the sports and recreational centre Športnorekreatijski center Otočec hosts larger events or congresses with hundreds of participants (up to 1,500).

Grad Otočec castle has grown to be a very popular spot for holding business meetings. Renovated as a high-class hotel with exquisite culinary offer, it represents a well-visited place where people meet for business, lunch or various protocol events.

Terme Krka has over the past few years already won the award for the most noticeable location for organising the business event Odmev, which yet again confirms the excellence in the preparation and execution of business events in Terme Krka.

ADDITIONAL OFFER ...

The amount of time our guests devote to themselves and to their well-being is growing; therefore, our business tourism offers are constantly supplemented with numerous relaxation services and programmes (massages, baths, programmes for preserving vitality and invigorating health) carried out in our relaxation centres, with variegated sports and recreational programmes, with golf programmes at one of the most beautiful Slovenian golf courses – Otočec, with preventive diagnostic examinations, and with a rich and diverse culinary offer.

For several years, living a healthy life has been the mission that the Krka group has pursued. In our society as well as among individuals, health is an appreciated value, well placed before material goods; therefore, in Terme Krka we have decided to follow the world wellness movement. All our centres – Balnea in Terme Dolenjske Toplice Spa, Vitarium in Terme Šmarješke Toplice Spa, and Salia in Talaso Strunjan Spa – satisfy the needs of our guests for pampering and relaxation. Our standard wellness programmes have been upgraded with findings from the field of medicine, with knowledge, experiences, and guidelines.

Balnea, Vitarium and Salia centres all boast a wide array of relaxation programmes from individual services to more complex programmes that bring pleasure to your life and your everyday. Pools filled with thermal or seawater, pleasant baths, relaxing saunas, massages for everyone, care programmes, and cosmetic procedures. We believe that due to the modern, busy lifestyle people should take some time off for themselves; therefore, all our guests receive a complete treatment.

... QUALITY AND WISH FULFILMENT

In Terme Krka, we believe that innovativeness, flexibility, and excellence are key factors in every stage of the process within business tourism. Guests' and customers' expectations are vital to designing our offer; therefore, we strive towards realising their wishes to the fullest (if need be, we come into agreements with external partners), always keeping in mind the highest level of quality. In the field of congress tourism, we will focus mainly on improving and perfecting the current offer in the future as well. Our guests will be approached individually on an even higher level, with parallel wellness and healthcare programmes being adjusted to their daily pace.

IN SHORT ...

You can choose from four exquisite locations: Terme Dolenjske Toplice Spa, Terme Šmarješke Toplice Spa, Talaso Strunjan Spa, and Otočec hotels. Modern equipment in seminar halls, accommodation for different wishes and tastes, exquisite culinary offer and wellness, organising team-building programmes, discounts for larger groups and for recurrent seminars, free Wi-Fi, free-of-charge parking – these are just some of the reasons you should organise your event in Terme Krka.

SPA-CE Fam trip

Date: 19-20 November 2017

Starting point: Dolenjske Toplice Thermal Spa

SATURDAY, 19 NOVEMBER 2016

13:00 – 15:00 Bus ride Dolenjske Toplice Spa – Topolšica

15:00 – 17:00 Welcome reception and site inspection Topolšica Thermal Spa

Already in the 16th century the power of thermal water drew visitors to Toplice valley. It has even raised the enthusiasm of Ljubljana's bishop Tomaž Hren. The health spa, then known as Florian's, opened for public in 1838. It wasn't until six decades later that the thermal spring was arranged for utilization for medicinal purposes. At that point the first buildings intended for seasonal guests were built.

17:00 – 18:00 Bus ride Topolšica – Zreče

18:00 Dinner and overnight in Terme Zreče

SUNDAY, 20 NOVEMBER 2016

8:00 – 10:00 Site inspection Terme Zreče

Terme Zreče, a modern Spa Resort with excellent natural properties, is situated in the midst of the lush green forests of Pohorje where the mountain River Dravinja calms down and connects the area with Dravinjske Gorice. Less than a half hour's drive from here you will find the Rogla Sports Centre at a height of 1517 metres above sea level. Air rich in oxygen and the good climate have a beneficial effect on the respiratory system. The mild semi-alpine climate, infinite sports possibilities and the Spa make this place an excellent year-round tourist and Spa destination.

10:00 – 11:00 Bus ride Zreče – Ptuj

10:30 – 13:00 Site inspection Terme Ptuj, lunch

The 35 year old Ptuj Spa is one of the youngest spas in Slovenia, situated in the oldest Slovenian city Ptuj that takes pride in roman and medieval heritage. Thermo- mineral water from their springs helps with rheumatic diseases and with conditions after surgeries and injuries. The eventful program of Roman games and ancient-roman weddings are organized for guests every year. The greatest feature is the thermal park- indoor and outdoor pool complex which offers more than 4.200 m2 of water surface with the largest water-slide system in Slovenia.

13:00 Ride to the airport and departure

Slovenian Spas Association

Stand 1

The common "Slovenian Natural Spas" trademark represents fourteen of Slovenia's natural spas that have fulfilled the strict conditions required for inclusion in the national health care system. The emphasis on a healthy lifestyle at Slovenia's natural spas is based on a centuries-long tradition of treatments with use of the renowned natural healing resources and experience in the fields of balneology, climatology, and thalassotherapy. Our integrated and holistic approach to treating guests combines the power of nature and the knowledge of modern medical science. Modern natural spa tourist centres have become one of the most outstanding elements of Slovenia's tourist offer. The increasing focus on developing a broader tourist and recreation offer has led to the redefinition as "thermal spas" and "wellness centres". Let the healthy waters of Slovenian natural spas also be the story of care for your health and well-being.

Therapeutic stays are based upon a complete spa treatment plan, which includes a medical consultation and individually-prescribed treatments to take into consideration your specific health condition. On arrival at a Danubius Health Spa, you will meet with one of our spa doctors. Based upon these results, the doctor will then design your personalised treatment regimen. This will combine natural treatments with physiotherapy, hydrotherapy, electrotherapy, packs and massage to achieve excellent results. We also offer a wide range of relaxation and wellbeing. Treatments in our spas take advantage of natural resources found in each location, ranging from thermal mineral waters to sulphuric mud. To benefit most effectively from the treatment, you are advised to stay for 2-3 weeks. Destinations: Budapest,

Terme Topolšica

Stand 11

Topolšica, with its natural resources, embodies everything that the soul and body of a modern man need. The region has many sunny days, without the gloomy fog. A hot thermal source appeared from the earth in that beautiful, peaceful corner, surrounded by green woods. The strength of thermal water has been known even in the 16th century. Healing water, fresh mountain air and plenty of sunny days have tempted the aristocrats from Vienna and the whole of Austro-Hungarian Empire during last centuries. Today, Topolšica Spa is a medicinal, touristic, recreational and catering center where everyone can find something to spend his/her quality time.

Jadranka Mali Lošinj

Stand 15

Lošinj's tourist beginnings 125 years ago are linked to health tourism, as the benefits of climate and vegetation of the island were first discovered by the wise Austro-Hungarian aristocracy. Along with proclaiming Lošinj a health resort, they built numerous villas and summer residences, which have been restored, and today enrich the landscape. Along with them, there are numerous newly built hotels, which are continually being upgraded with new facilities. Some of them already boast four stars, offering Wellness Centre programs and swimming pools with heated sea water. You'll experience a symphony of colours, fragrances and tastes, revelling in the island's traditional cuisine based on wild, aromatic plants and olive oil. Thanks to its mild Mediterranean climate, pinewoods and air, this is an ideal place to recreate your body and spirit.

Terme Zreče

Stand 16

Today we live fast and lonely lives, full of stress. Therefore, it is even more necessary to take some time off for yourself or your loved ones and find a spot offering you peace, relaxation, comfort and satisfaction. Peace, beautiful nature and lively people make Terme Zreče, a natural thermal spa resort under the mighty green Pohor-je, one of those rare places on Earth, where the body can rest and regain energy, where the soul can reach its inner peace. The search for something fresh, colourful and elegant is accompanied with the desire for new adventures and experiences, reflecting refinement in things, nature and people.
